RA briefing ELIS SEIS final r1r2.docx

Hi Dave & Betsy,

Attached is a one pager we created summarizing the ELIS SEIS process thus far.

We are expecting to come out in March with a draft.

Please use this information as background. I will provide an agenda and schedule later this morning.

But the plan on Monday is to discuss next steps with you and to provide an update of the meetings/calls we have had (public, congressional, cooperating agency/MLM) .

Next steps : we have a lot of moving parts in spring 2015: this draft ELIS SEIS; the LIS DMMP draft; SMMP's; A letter to extend use of CLDS and WLDS (or not depending on the results of the LIS DMMP); and ELIS rulemaking and CLDS/WLDS rulemaking revision.

Also, R2 is interested in discussing further, our communication strategy.

A lot to pile into a conference call. Please let me know if you would like any additional information. I am working today and Monday but then off on A/I.

Thanks, happy holidays! Jeannie
